Three and nine months ended March 31, 2022 (unaudited - in US dollars)

1. GENERAL INFORMATION

Highland Copper Company Inc. is a Canadian-based company. Highland and its subsidiaries (together "Highland" or the "Company") are primarily engaged in the acquisition, exploration and development of mineral properties in the State of Michigan, USA. Highland's common shares are listed on the TSX Venture Exchange under the symbol "HI", and on the OTCQB Venture Marketplace under the symbol "HDRSF".

At March 31, 2022, the Company's principal assets, located in Michigan's Upper Peninsula region, include the 100%-owned Copperwood copper project (the "Copperwood Project") and the White Pine North copper project (the "White Pine North Project").

On July 27, 2021, the Company completed the final acquisition of the White Pine North Project from Copper Range Company ("CRC"), a wholly-owned subsidiary of First Quantum Minerals Ltd. (Note 5). On August 27, 2021, the Company sold the UPX property to Sweetwater Royalties ("Sweetwater"), a company owned by Orion Resource Partners ("Orion"), a significant shareholder of the Company (Note 5). On August 27, 2021 and on September 9, 2021, the Company completed in two tranches a non-brokered private placement for gross proceeds of Can \$26,342,993 (\$20,824,827) (Note 9) and settled all amounts due to Osisko Gold Royalties Ltd ("Osisko") and Greenstone Resources II LP ("Greenstone") under the credit facility described in Note 6.

All financial results in these unaudited condensed interim consolidated financial statements are expressed in US dollars unless otherwise indicated.

The Board of Directors approved these unaudited condensed interim consolidated financial statements on May 24, 2022.

COVID-19

The rapid spread of the COVID-19 virus and actions taken globally in response to COVID-19 have significantly disrupted business activities and capital markets throughout the world. Given the ongoing and dynamic nature of the circumstances surrounding COVID-19, it is difficult to predict how significant the impact of COVID-19, including any responses to it, will be on the economy and the Company's business in particular, or for how long any disruptions are likely to continue. The extent of such impact will depend on future developments, which are highly uncertain, rapidly evolving and difficult to predict. Such further developments could have a material adverse effect on the Company's business, financial condition, results of operations and cash flows.

2. GOING CONCERN

These unaudited condensed interim consolidated financial statements have been prepared on the basis of a going concern, which assumes that the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations.

The Company is subject to a number of risks and uncertainties associated with its future exploration and development activities. The recovery of amounts recorded for exploration and evaluation assets depends on the ability of the Company to obtain the necessary financing to complete the development of the projects, and future profitable production from the projects or proceeds from their disposition thereof.

Management of the Company believes it has sufficient funds to pay for its ongoing general and administrative expenses and to meet its liabilities, obligations and existing commitments for at least the next 12 months. However, since the Company does not generate revenues, the Company will need to obtain additional funds to pursue its operations and meet its obligations related to the development of the Copperwood and White Pine North projects.

To date, the Company has not yet generated positive cash flows from its operating activities and is in the exploration and development stage. The Company has a deficit of \$64,628,877 at March 31, 2022 (a deficit of \$63,970,379 at June 30, 2021). At March 31, 2022, the Company has a working capital of \$13,232,333 (a working capital deficiency of \$23,187,976 at June 30, 2021).

The conditions and uncertainties described above indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. If the going concern assumption was not appropriate for these unaudited condensed interim consolidated financial statements, adjustments which could be material would be necessary to the carrying value of assets and liabilities and reported expenses.

9. SHARE CAPITAL

Issued and fully paid

At March 31, 2022, the Company had 736,363,619 issued and outstanding common shares (472,933,689 issued and outstanding common shares at June 30, 2021).

Issuance of securities

On August 27, 2021 and on September 9, 2021, the Company completed in two tranches a non-brokered private placement through the issuance of 263,429,930 units (the "**Units**") at a price of Can \$0.10 per Unit for total proceeds of Can \$26,342,993 (\$20,824,827). Each Unit consisted of one common share of the Company and one half of one common share purchase warrant (each whole warrant, a "**Warrant**") with each Warrant exercisable to acquire one common share of the Company at a price of Can \$0.18 per share until August 27, 2023 and September 9, 2023. The fair value of the common shares was calculated by using the TSXV share price on the date of the issuance and the fair value of the warrants was estimated at Can \$0.03 per warrant by applying the Black-Scholes option pricing model, using an expected time-period of 2 years, a weighted average risk-free interest rate of 0.9%, a weighted average volatility rate of 88% and a 0% dividend factor. An amount of \$2,853,764 was allocated to the share purchase warrants and presented as part of contributed surplus. Share issue expenses related to this private placement amounted to \$159,750, including finders' fees of \$82,600.

The underlying expected volatility described above was determined by reference to historical data of the Company's share price over the expected life of the warrants.

HIGHLAND COPPER COMPANY INC. MANAGEMENT'S DISCUSSION & ANALYSIS - QUARTERLY HIGHLIGHTS FOR THE THREE MONTHS ENDED MARCH 31, 2022

The following management's discussion and analysis - quarterly highlights ("Interim MD&A") of Highland Copper Company Inc. ("Highland" or the "Company") for the three months ended March 31, 2022 provides material information about the Company's business activities during the interim period and updates disclosure previously provided in the Company's management's discussion and analysis for the year ended June 30, 2021 ("Annual MD&A").

This Interim MD&A should be read in conjunction with the Company's unaudited condensed interim consolidated financial statements and related notes for the three months ended March 31, 2022 (the "Interim Financial Statements"), the Company's audited consolidated financial statements for the years ended June 30, 2021 and 2020 (the "Annual Financial Statements") and the Company's Annual MD&A, including the section describing risks and uncertainties. All financial results presented in this Interim MD&A are expressed in US dollars unless otherwise indicated.

The effective date of this Interim MD&A is May 24, 2022.

DESCRIPTION OF BUSINESS

Highland and its subsidiaries are engaged in the acquisition, exploration and development of mineral properties. The Company's assets are **Copperwood**, a feasibility stage copper project, and **White Pine North**, an advanced-stage copper project, both located in the Upper Peninsula region of the State of Michigan, USA.

Highland, a Canadian-based company, was incorporated under the *Business Corporations Act (British Columbia)* in 2006. Highland's common shares are listed on the TSX Venture Exchange ("**TSXV**") under the symbol "HI" and on the OTCQB Venture Marketplace (the "**OTCQB**") under the symbol "HDRSF". As at March 31, 2022, the Company has 736,363,619 common shares issued and outstanding. Orion Resource Partners ("**Orion**"), Condire Investors LLC ("**Condire**") and Greenstone Resources II LP ("**Greenstone**") hold respectively 27.7%, 16.2% and 15.9% of the Company's issued and outstanding common shares.

HIGHLIGHTS DURING THE THREE MONTHS ENDED March 31, 2022

- During the quarter, we continued work on the updated Feasibility Study which is being undertaken by G Mining Services
 Inc. ("G Mining"). At March 31, 2022, approximately 90% of the underlying engineering work was completed. We are
 targeting to complete the updated Feasibility Study, including a development schedule, by June 2022.
- The Company is aiming to initiate construction activities at the Copperwood Project in early 2023, depending in part on the results of the updated Feasibility Study and reigning conditions in the financial and capital markets.
- Year to date, a range of key steps have been taken to prepare Highland Copper for funding and development of our key assets in Michigan. The sale of the Company's exploration assets and an equity raise in the first half of the year facilitated payment of all outstanding corporate debt. Six new Board members were added in December 2021 and we announced the appointment of Barry O'Shea as Highland's Chief Financial Officer in February 2022.
- At White Pine North, the Company plans to initiate baseline environmental studies over the coming months and will
 consider a conversion drilling program this coming winter. We plan to begin a Feasibility Study in the first half of 2023.

- The Company realized net income loss of \$1.5 million during the three months ended March 31, 2022 and a net income loss of \$0.7 million for the nine months ended March 31, 2022 (nil per share) compared to a net loss of \$0.8 million during the three-month comparative period and a net loss of \$2.5 million for the nine-month comparative period in 2021 (nil per share); net income during the 2022 period includes a gain of \$2.9 million on the sale of UPX Minerals to Sweetwater.
- Expenditures in three months ended March 31, 2022 relate primarily to the ongoing updated Feasibility Study work for Copperwoood.
- As at March 31, 2022, the Company is debt free, has cash of \$14.1 million and working capital of \$13.2 million.
- The Company estimates that the current working capital will be sufficient: (i) to complete the update of the 2018 Copperwood Feasibility Study described below, (ii) to initiate baseline environmental studies at the White Pine North Project and (iii) to provide for management and administration expenses for at least the next 12 months.

EXPLORATION AND EVALUATION EXPENSES

The amounts capitalized during the nine months ended March 31, 2022 include a lease payment of \$266,025 related to the Copperwood Project and an amount of \$593,148 resulting from an increase of the environmental liability related to the White Pine North Project following its final acquisition in July 2021.

Exploration and evaluation expenses charged to earnings during the three months ended March 31, 2022 and 2021 are as follows:

At March 31, 2022, financial liabilities of \$1,159,558 consisted of accounts payable and accrued liabilities due within the next three months.

RELATED PARTY TRANSACTIONS

During the three and nine months ended March 31, 2022, the Company incurred administration expenses of \$15,639 and \$46,679, respectively from Reunion Gold Corporation ("**Reunion Gold"**), a related party by virtue of common key management and a director (\$13,738 and \$59,527 during the comparative period in 2021). At March 31, 2022, the Company had an amount payable of \$15,639 to Reunion Gold (\$126,051 at June 30, 2021).

The remuneration to directors and key management of the Company, including the President and CEO and the CFO, during the three and nine months ended March 31, 2022, totaled \$209,067 and \$615,312, respectively, including an amount of \$300,000 paid to the Company's former executive chairman following the termination of his employment agreement effective August 31, 2021 (\$128,711 and \$428,999 during the comparative periods in 2021) and an amount of \$120,038 (\$150,000 CAD) to the former CFO.

As described in the *Corporate Activities* section, the sale of UPX Minerals to Sweetwater, an affiliate of Orion, and the participation of insiders in the Offering are also related party transactions that occurred during the three months ended September 30, 2021.

RISKS AND UNCERTAINTIES

Highland is subject to a number of significant risks and uncertainties due to the nature of its business which includes the acquisition, exploration and development of mineral projects. Failure to successfully address such risks and uncertainties could have a significant negative impact on Highland's overall operations and financial condition and could materially affect the value of Highland's assets and impact its future operating results and business plans. Therefore, an investment in the securities of Highland involves significant risks and should be considered highly speculative.

Highland's ability to raise the necessary funds to develop its projects and place them into commercial production depends in part upon the market's perception of its mineral projects, the price of and demand for copper, the state of the market to finance resource projects and global market conditions in general. No assurance can be given that additional capital will be available at all or available on terms acceptable to Highland.

The extent to which the COVID-19 pandemic impacts the Company's business will depend on future developments which are highly uncertain and cannot be predicted at this time. In addition to the potentially adverse impact on the Company's ability to raise the funds required to continue its activities, the continued spread of the COVID-19 globally could also have an impact on employees' health, the availability of personnel, and other impacts beyond the Company's control, all of which may have a material and adverse effect on the Company's business, financial condition and results of operations.

Additional risks or uncertainties not presently known to Highland or that Highland currently considers immaterial may also impair its business operations. Highland cannot give assurance that it will successfully address these risks. For additional risk factors, refer to the risks and uncertainties described in the Annual MD&A. Readers should carefully consider these risks and uncertainties.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

This MD&A contains "forward-looking information" within the meaning of Canadian securities legislation and "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 (collectively, "forward-looking statements"). These forward-looking statements are made as of the date of this MD&A and the Company does not intend, and does not assume any obligation, to update these forward-looking statements, except as required under applicable securities legislation. Forward-looking statements relate to future events or future performance and reflect expectations or beliefs of the Company's management regarding future events. Forward-looking statements include but are not limited to statements with respect to: funding requirements to explore and develop the Copperwood and White Pine North projects; the estimation of mineral resources and mineral reserves; the timing and cost of the construction of the Copperwood Project; the timing and amount of estimated future production, costs of production and capital expenditures; and the Company's plans and objectives. In certain cases, forward-looking statements can be identified by the use of words such as "plans", "expects", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", "believes" or variations of such words and phrases, or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" or the negative of these terms or comparable terminology. In this document certain forward-looking statements are identified by words including "anticipation", "plan" and "expected".

By their very nature, forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, but are not limited to, the Company's ability to raise capital, risks inherent to future prices of copper and other metals, the accuracy of mineral resource and mineral reserve estimates, increased operating and capital costs due to inflation or other factors, supply chain disruptions, changes to governmental regulations, compliance with governmental regulations and environmental laws and regulations, reliance on approvals and permits from governmental authorities, challenges to title to the Company's mineral properties, maintaining social license to operate, dependence on key management personnel, competition in the mining industry, and other risks of the mining industry as well as those factors detailed from time to time in the Company's interim and annual financial statements and MD&A, all of which are filed and available for review under the Company's profile on SEDAR at www.sedar.com.

Although the Company has attempted to identify important factors that could cause actual results, performance, or achievements to differ materially from those described in these forward-looking statements, there may be other factors that cause results, performance or achievements not to be as anticipated, estimated or intended.

There can be no assurance that these forward-looking statements will prove to be accurate, as actual results, performance or achievements could differ materially from those anticipated in such statements. Accordingly, readers should not place undue
